Work Experience

INDEPENDENT CONTRACTING | APRIL 2017 – CURRENT

- As an independent contractor, I work directly with clients and negotiate what services I can provide for the client and the client and I work out a contract that binds us to fulfilling our end of the deal. Doing this, I have made a website for Everything Rocks company at EverythingRocks.co, and I currently work as a director/videographer/editor for a DIY "how-to" style web series for Everything Rocks that I maintain on YouTube. This is negotiated on a job-to-job basis. In addition, I continue to maintain/update the website as needed.

DELIVERY DRIVER | PAPA JOHN'S | FEBRUARY 2016 - CURRENT

- As a delivery driver, I am often times the face of the company, meaning that I have to be presentable and professional while interacting with a wide variety of customers. I was am responsible with taking orders over the phone, boxing food out of the oven, organizing and staking orders and inventory, and maintaining a clean and sanitary work station. Time management is a big part of the job, as I am always on a schedule, and I am required to maintain a professional attitude when dealing with a range of difficult situations.

AMAZON MOD EMPLOYEE | AMAZON INC. | NOVEMBER 2013 – JANUARY 2014

- While working at Amazon, I learned how to work with a group of people and how to adapt to different jobs and departments. I primarily fixed and maintained the DVD/CD printers and worked with tagging and sorting disks into their respectful cases. I worked 12 hours a day & would often have to lift boxes over 30lbs. I left Amazon to start school.

Other Experience/Activities

- Church band member since 2010.
- Black belt in Tae-Kwon-Do.
 - Taught a class at Royal Springs middle school for a semester.
- 2nd in state award for a TSA competition in animatronics, qualified for nationals.
- Missions trip to Haiti where I helped teach English to 4th graders.
